

CLARIFICATION MEMO

To: ACT Participants & ACT Participating Tracks
From: ACT
Date: January 11, 2018
Subj: Chassis

The following is to clarify the Chassis rule:

Page 1 Item A Number 1

1. Frames, Chassis, and Cages

- Centerline of engine must remain within ½" (1/2 inch) measurement of centerline of tread width, measured from **the inner pivot point of equal length front lower control arms on both sides of snout. A-frame suspensions will be measured from lower ball joints.**
