

KRC has been designing and producing cutting edge power steering and serpentine pulley systems since 1997. They pride themselves in providing the highest quality product, complimented by the best service in the industry. Spending countless hours researching and developing every aspect of their products, from the machine finish and anodizing, to fit and placement, to the smallest of hardware particulars, KRC continues to innovate and improve for the weekend warrior and the short-track star.

KRC Power Steering has been a Contributor to American-Canadian Tour Racing since 2017
